Wednesday August 7, 2024 – The mid-week show will begin with the National Anthem display followed by a pyro musical presented by our Junior Pyrotechnics Association (JPA), the kids of the organization. Up next with a pyro musical is North Star. The Old Stars will then light up the sky with an old-fashioned hand-fired show with shells all made in Minnesota. The evening's finale will be by Big Sky Pyrotechnics. It will be quite a sight!

Child (ages 2-15) - **\$20**

Friday August 9, 2024 – The Grand Finale will be an amazing evening. Dominator Fireworks start the evening off with the National anthem. Then the Best of the Best will shoot their shells, most likely made throughout the convention, in the Builders Showcase Display. Mum Pyro will feature a pyro musical showing off all the products made by PGI members during their week long class. It's a real Made in America event. We are told there are also a few other surprises in store, a 24-inch shell made by a Guinness World Record holder, as well as builders all the way from Malta sharing their Maltese style shells built during their trip to Minnesota. This exciting evening will be capped off with a combination pyrotechnics & drone pyro musical presented by Spirit of 76 and Verge Aero. This will be an evening you do NOT want to miss!!

Tickets may be available at the gate day of show. (Cash Only at the gate)
